D.1 Acronyms and Abbreviations

Acronym/Abbreviation	Definition
40 CFR	Title 40 of the Federal Code of Regulations
AA	Alternatives Analysis
AB 32	California Global Warming Solutions Act of 2006
AC	alternating current
ACGIH	American Conference of Governmental Industrial Hygienists
ACHP	Advisory Council on Historic Preservation
ADA	American with Disabilities Act
ADPs	Area Drainage Plans
ADT	average daily traffic
AEP	Association Environmental Professionals
AGO	California Attorney General's Office
ALUC	Airport Land Use Compatibility
APE	Area of Potential Effects
APN	Assessor's Parcel Number
APTA	American Public Transportation Association
AQMP	Air Quality Management Plan
ARB	California Air Resources Board
AREMA	American Railway Engineering and Maintenance of Way Association
ASLA	American Society of Landscape Architects
ASR	Archaeological Survey Report
AST	aboveground storage tank
Ave	Avenue
AVO	Average Vehicle Occupancy
AVR	Average Vehicle Ridership
AWSC	All-way stop control
BAT	Best Available Technology
BCT	Best Conventional Pollutant Control Technology
BCWTF	Ballona Creek Watershed Task Force
BEP	Bond Expenditure Plan
Bgs	below ground surface
Blvd	Boulevard
BMPs	Best Management Practices

D. Acronyms, Abbreviations, and Definitions

Acronym/Abbreviation	Definition
B.P.	Before Present
BRT	Bus Rapid Transit
BTEX	benzene, toluene, ethyl benzene, and total xylenes
Btu	British thermal units
CAA	Federal Clean Air Act
CAFE	Corporate Average Fuel Economy
CA FID	Facility Inventory Database
CalARP	California Accidental Release Prevention Program
Cal EPA	California Environmental Protection Agency
CAL/OHP	State of California Office of Historic Preservation
Caltrans	California Department of Transportation
CAPCOA	California Air Pollution Control Officers Association
CA SLIC	Spills, Leaks, Investigations and Clean Up Program
CAT	California Climate Action Team
CBC	California Building Code

CEQA	California Environmental Quality Act of 1970
CERCLA	Comprehensive Environmental Response, Compensation, and Liability Act of 1980
CERCLIS	Comprehensive Environmental Response, Compensation and Liability Information System
CESA	California Endangered Species Act
CFCs	Chlorofluorocarbons
CFR	Code of Federal Regulations
cfs	cubic feet per second
CH ₄	methane

D. Acronyms, Abbreviations, and Definitions

Acronym/Abbreviation	Definition
CHC	Cultural Heritage Commission
CHMIRS	California Hazardous Material Incident Report System
CHP	California Highway Patrol
CHRIS/NWIC	California Historical Resources Information System, Northwest Information Center
CIDH	cast-in-drilled-hole (piles)
CIMP	Construction Impacts Mitigation Plan
CIWMB	California Integrated Waste Management Board
CLOMR	Conditional Letter of Map Revision
CMA	Congestion Management Agency
CMP	Congestion Management Program
CMS	Congestion Management System
CNDDB	California Natural Diversity Database
CNG	compressed natural gas
CNPS	California Native Plant Society
CNPSEI	California Native Plant Society Electronic Inventory
CNS	Conservation Areas
CO	carbon monoxide
CPHI	California Points of Historical Interest
CPUC	California Public Utility Commission
CRHR	California Register of Historical Resources
CRTP	Cultural Resources Treatment Plan
CS	Contributing Structure/Site
C&S	Communications and Signals
CUPA	Certified Unified Program Agency
CWA	Clean Water Act
dB	decibel
DBH	diameter at breast height
dBA	A-weighted decibels
DC	direct current
DCIA	directly connected impervious areas
DDT	Dichloro-Diphenyl-Trichloroethane
DEED	Deed Restriction Listing
DOE	Department of Energy
<u>DOGGR</u>	<u>California Division of Oil, Gas and Geothermal Resources</u>
DOSH	Division of Occupational Health
DOT	U.S. Department of Transportation
DPM	diesel particulate matter

D. Acronyms, Abbreviations, and Definitions

Acronym/Abbreviation	Definition
DPR	Department of Pesticide Regulation
Dr	Drive
DTSC	Department of Toxic Substances Control
DVR	digital video recorder

D.2 Definitions

D.2.1 Roadways

Based on the City of Los Angeles' General Plan Circulation Element, roadways have functional classifications that range from Major Highway, to Secondary Highway, to Collector Street. A brief description of these types of roadways is provided below.

- A Major Highway (Class I) has three full-time through lanes in each direction, one part time parking lane in each direction and one median/left-turn lane with 12-foot-wide sidewalks on both sides.
- A Major Highway (Class II) has two full-time through lanes in each direction, one part-time parking lane in each direction, and one median/left-turn lane with 12-foot-wide sidewalks on both sides. Pedestrian priority segments include 17-foot-wide sidewalks on both sides.
- A Secondary Highway has two full-time through lanes in each direction, all-day permitted parking, and one median/left-turn lane with 10-foot-wide sidewalks on both sides. Pedestrian priority segments include 15-foot-wide sidewalks on both sides.
- A Standard Collector Street has one full-time lane in each direction, one full-time parking lane in each direction, and 10-foot-wide sidewalks on both sides.

Based on the City of Santa Monica General Plan Circulation Element, roadways have functional classifications that range from Arterial Street, to Collector Street, to Feeder Street. A brief description of these types of roadways is provided below.

- An Arterial Street carries the majority of traffic entering or traveling through the City. A major arterial would contain either four or six lanes of through traffic, plus left-turn lanes. Minor arterials serve the same function as major arterials, but have four lanes of through traffic and may or may not have separate left-turn lanes.
- A Collector Street carries traffic between residential neighborhoods and the arterial street network. They are two lane roadways and generally have a mixture of residential and commercial land uses along them.
- A Feeder Street is similar to collectors in that they carry traffic between residential neighborhoods and the arterial street network; however, they are almost solely residential in character. Feeder streets generally have single-family or multi-family residences front on the street.

D.2.2 Bikeways

- Class 1 bikeways (bicycle paths) are facilities with exclusive right-of-way, with minimal motorist cross traffic.
- Class 2 bikeways (bicycle lanes) are striped lanes reserved for bicycles within the paved areas of roadways.
- Class 3 bikeways (bicycle routes) are established by placing Bike Route signs along roadways.
